WHAT IS RUNNING START?

Washington State's Running Start program allows high school juniors and seniors to take TUITION FREE classes at any of Washington's 34 community and technical colleges. Students jump start their futures by earning both high school and college credits at the same time. Credits transfer to 2 and 4-year community and technical colleges across Washington State so students can live wherever they want or stay close-to-home. Many graduate high school with a high school diploma AND an associate degree or career-focused certification at the same time!

Running Start students can start in fall, winter, or spring while staying involved with their own high school's extracurricular activities such as sports teams, dances, social events, and clubs!

START FAST. FINISH FASTER.

Running Start students save time and money, while improving their chances of college and career success!
