Introduction

This document is intended to supplement the Image/Upgrade Overview Document and provide ctcLink users with a more detailed summary of the accessibility changes that will be made in the system as a result of the upcoming CS Image 26. Oracle releases multiple updates every year that often include improvements to PeopleSoft's accessibility. Below is an overview of the accessibility enhancements that you can expect to see as part of the image

Accessibility

Set Autocomplete for Add Name Fluid Self Service

Added autocomplete attributes to page fields for fluid self-service name adds.

Navigation

Student Homepage > Profile > Personal Details

Image: Add Name Form

The screenshot shows a web form titled "Add Name". At the top left is a "Cancel" button and at the top right is a "Save" button. The form contains the following fields and controls:

- *Type: A dropdown menu with "Preferred" selected.
- *Name Format: A dropdown menu with "English" selected.
- Prefix: A dropdown menu.
- *First Name: A text input field.
- Middle Name: A text input field.
- *Last Name: A text input field with an autocomplete dropdown menu open. The dropdown shows two suggestions: "josh" and "josh c", each with a small circular icon to its left. Below the suggestions is a "Manage addresses..." option with a circular icon.
- Suffix: A dropdown menu.

Set Autocomplete for Add Email Fluid Self Service

Added autocomplete attributes to page fields for fluid self-service email adds.

AY2023 ISIR Correction and ISIR Suspense

People code and Page field modifications to fix the Group Box related audit hits for 2023 Correction component and 2023 ISIR Suspense Management pages. After invoking INAS from any tab of the Correct 2022-2023 ISIR Records Component (ISIR_CORRPIA23), the application re-directs (per usual) to the EFC\DB Matches\Corr tab, however it is now landing on the first/earliest effective dated row, rather than the latest/current effective dated row, where the calculation had been

performed.

The re-redirect should be landing on the current effective dated row, as had always been the case prior to this observed behavior. The functionality is still working properly on the older year ISIR components.

The issue can be reproduced at will with the following steps:

1. Navigate to Financial Aid > Federal Application Data > Correct 2022-2023 ISIR records.
2. Choose a student who has more rows than just the initially loaded transaction; or if there is only the initially loaded transaction (row 1 of 1), click the + sign to add a new row.
3. Click INAS button.
4. Note that the page has landed on the earliest row (2 of 2, or 4 of 4 etc.).

Navigation

Financial Aid > Federal Application Data > Correct 2022-2023 ISIR records

Image: ISIR Data page order – CS Image 26

The screenshot shows a web application interface for ISIR Data. At the top, there are navigation tabs: "Student Information" (highlighted in green), "Parent Information", "Assumptions\School Codes", and "EFC\DB Matches\Corr". To the right of these tabs are links for "New Window", "Help", and "Personalize Page". Below the tabs, there is a search bar and a filter for "Aid Year" set to "2023" and "2022-2023 Financial Aid Year". The "Institution" is set to "WA200". A red "X" icon is visible below the filter. The main section is titled "ISIR Data" and contains a search bar with "1 of 4" results. Below the search bar, there are filters for "Effective Date" (09/15/2022), "Transaction Num" (3), "Correction Status" (Correction(s) Pending), and "Status Date". There are also links for "EFC Status" (Unofficial, Primary EFC 3,506, Prorated EFC 3,506, FMIM Need Summary) and an "INAS" button. Below the filters, there is a section titled "Actual Bio/Demo Data" with a list of checkboxes for "Correct Name", "Correct Address", "Correct SSN", "Correct Date of Birth", "Correct Telephone", "Correct Citizenship", and "Correct Email". The "Correct Email" checkbox is checked, and the email address is "cs_ctc1_1@qctclink.local". Below this section, there is another section titled "ISIR Bio/Demo Data".
