Introduction

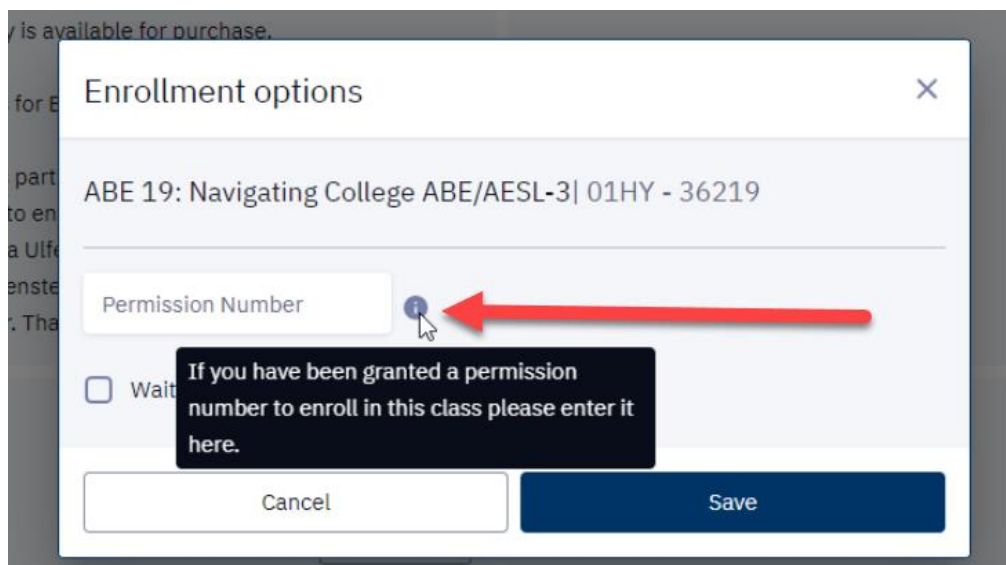

The Image/Upgrade Overview Document is intended to provide ctcLink users with a summary of the changes that will be made in the system as a result of the HCX upgrade implementation. HighPoint releases multiple HCX updates, for the CS pillar every year. Each update contains bug fixes and features that are important for HCX Mobile to work well and bring forward user experience and accessibility improvements forward.

Changes to the User Experience

Enrollment Options

- Added a tooltip for the Permission Number field of Enrollment Options

- Variable unit classes will no longer default to the minimum units and require a student to make a selection in order to save

Public Springboard

- Provided a 'Login' link for display from the Public Springboard allowing users to authenticate directly into the application
