

OUT OF STATE EMPLOYEES

State Withholding, Unemployment Insurance, Workers' Compensation

Lisa Espedal & Natalie Horner May 9, 2024

FIRST STEP:

- Identify employees who are residing and working outside of the State of Washington.
- Run the query: QHC_HR_EMPLOYEE_ADDRESSES
 - Filter for State to find employees with addresses in states other than Washington.
 - Filter by Address Type and you should find at least one row for each employee. Each should have one with a HOME address type.
 - Reach out to your employee if you see addresses without the HOME address type and make sure one is added.

• QHC_HR_EMPLOYEE_ADDRESSES_PY — To verify Tax Location, State/Local Tax Data and Tax Distribution.

QHC_HR_EMPLOYEE_ADDRESSES_PY - EE addr, tax loc vs tax data		
*Company	Q	
Addr Type (or blank)	Q	
HR Status (A, I or % for both)	%	
State (% for All)	%	

• QHC_HR_EMPL_STATE_ADDR_CHANGE — Identifies EE's who moved to another state, which may affect state taxation.

WHAT IF I HAVE AN EMPLOYEE WORKING REMOTELY FROM ANOTHER STATE?

- What triggers nexus?
- College Out-of-State Employment Policy
 - Does Payroll have a voice or a seat at the table?
 - Do decision-makers understand what it means to have nexus in a non-Washington location?
 - Does the college require notification/approval prior to an out-of-state hire or move?
 - What options are given to employees?

- Considerations
 - Cost of non-compliance vs cost of additional payroll processing/reporting
 - Information Technology Data Privacy & Safety
 - Benefits
 - State Wage and Hour Rules

"Payroll is usually the last to know" ☺

NEXT STEPS:

- Open a support ticket for Central Payroll to provide guidance on how to register as an employer in non-Washington states and begin compliance with their employment laws
 - Open a separate support ticket for each state
- Enroll the EE in out-of-state workers' compensation coverage
 - Department of Enterprise Services (DES)

THIRD STEP:

- Open a support ticket for HCM Customer Support to configure your college's ctcLink settings for each non-Washington state.
 - Open a separate support ticket for each state.

HCM Customer Support will need the following information:

- Your ctcLink company ID number
- 2. Name of the state you need to have set up
- 3. State Withholding ID number and effective date
- 4. State Unemployment ID number, effective date, and experience rate percent or exempt status
- 5. If applicable, State Disability ID number, effective date, and experience rate percent or exempt status
- 6. If applicable, State Paid Family/Medical Leave ID number, effective date, and rates
- 7. If applicable, Municipality, City, School District, or other Miscellaneous tax account ID number(s), effective date(s), and rate(s)
- 8. Vendor number(s) and remittance address(es) for state tax account payments

FINAL STEPS:

 Make applicable changes in ctcLink on each affected employee's State Tax Data tab.

QRG: Entering U.S. Employee Tax Data

Navigation: Payroll for North America > Employee Pay Data USA > Tax Information > Update Employee Tax Data

- Transfer unemployment insurance coverage to the other state
- Remove the EE from WA PFML and WA Cares
- Withhold/remit state, local, municipal income tax
- File state payroll returns when due

RESOURCES

- Open a support ticket with Central Payroll (request type: ctcLink Support > Human Capital Management > HCM > SBCTC Central Payroll) to ensure your request is routed and documented correctly.
- Open a support ticket with HCM Customer Support (request type: ctcLink Support > Human Capital Management > HCM: Payroll).
