Project Information

Project Description:

(Include a brief summary of the project and the programs it supports.)

New building construction to support regional Apprenticeship instruction and certification for numerous trades including carpentry, masonry & concrete, electrical, and roofing as well as finishing, flooring, insulating, laborer training, et al. The facility will be flexible to meet rising and changing industry needs for skilled labor demand.

Project Status:

(include scope or budget changes, phase updates, identified project delivery issues, discussion of critical path for construction and any potential for project cost overruns or claims.)

Project design has been postponed until January 2026 based on the timeline for construction funding (27-29 biennium). We will need to know if there is a chance for earlier funding so we can prepare.
